

Field Mechanic B, Full-Time Manitowoc, WI

POSITIONS AVAILABLE:

One (1) full-time opportunity

GENERAL SUMMARY:

During the packing season, Field Mechanic B serves as a crew leader/mechanic for field operations, and in the off-season is involved with the overhaul and repair of machinery and vehicles used in field operations.

PRINCIPLE DUTIES AND RESPONSIBILITIES:

- Responsible for the efficient operation of the pea harvesters, sweet corn pickers, and any other equipment used in our planting and harvesting operations.
- Maintain all equipment in good repair.
- Responsible for the preventative maintenance, adjustments, and repair of field equipment.
- Utilize harvesting procedures which generate maximum crop recovery and quality.
- Train and supervise all employees on crew.
- Train employees to the safe, proper and efficient operation of equipment to which they are assigned.
- Transport crew to work location using a Company vehicle.
- Repair/overhaul field equipment during the off-season.
- Supervise the crew of seasonal personnel during the harvesting of crops.
- Enforce Company safety policies and procedures.
- Assist in accident investigations.
- Maintain work area in a clean and orderly manner.
- Develop basic first aid skills.
- Report all injuries to the Field Manager.
- Adhere to all Lakeside Foods policies and procedures.
- Notify management immediately if any unsafe or potentially hazardous conditions are discovered.
- May perform other duties as assigned by the supervisor.

The applicant should have three to five years experience as a Field Mechanic or equivalent experience. Knowledge of the operation, preventative maintenance and repair of field equipment would be useful as well.
